THE LEADING PERFUME OF THE AGE!

From Fresh Culled Flowers,

MURRAY & LANMAN'S

CELEBRATED

Florida Water.

This exquisite Perfume is prepared direct from Bloom ing Tropical Flowers, of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a Delightful Buoancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For

Fainting Turns,
Nervousness,
Headache,
Debility,
And Hysteria,

It is a sure and speedy relief with the very ELITE Fashion; it has for 25 years maintained its ascendancy over all other perfumes, throughout the West Indies Cuba, Mexico and Central and South America, and we confidently recommend it as an article which, for delicacy of flavor, richness of bequet, and permanency has no equal. It will also remove from the skin

Roughness,
Blotches,
Sun Burn,
Freckles,
And Pimples.

It is as delicious as the OTTO OF ROSES and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifrice, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

LIQUOR CARBONIS DETERGENS

OR

Concentrated Alcoholic Solution of the

Constituents of COAL TAR

[Extract from the Lancet, Dec 22, 1866.

LIQ CARBONIS DETERGENS—We are very sceptical of the value of new remedies, and it was in a spirit of scepticism that we tried the liq. carbonis detergens. It is represented to be a concentrated alcoholic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, napthaline, and phenic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above classes of disease, and in various others such as fetid ulcers, etc., the preparation is put into the form of soap.

The Roman Question.

Garibaldi has again attempted to effect what he terms "the emancipation of Italy" by an invasion of the Papal States; but from the action of his Government it would appear that his efforts are not appreciated. He was seized, and an armed force has been set in motion for the frontier with instructions to put down the Garibaldians who have taken up arms at their chieftain's bidding. The dispatch adds that an army has left France for Rome to preserve the integrity of the Pope. A few months only have elapsed since the last French soldier sailed from Rome for home and the State was left to its own resources for protection. The presence of foreign troops on Italian soil was distasteful to Victor Emanuel when his authority was confined to the petty Sardinian States, as sovereign of which he may be said to have existed upon the sufferance of Austria. In the dark days of Italy Napoleon became her ally. He assisted the Sardinians in their war against Austria in 1859 and 1860, and, in exchange for Savoy and Nice, which were ceded to France as a reward for its friendship secured them in the possession of important Provinces. Subsequently the invasion of Naples by Garibaldi was connived at by the Italian King and the French Emperor, and the Italians joining in the struggle soon drove King Bomba from the throne and added Naples to the Kingdom of Italy. Three years ago Garibaldi invaded Venetia. He was pursued by Italian troops, wounded and taken prisoner, and his followers dispersed. The time had not arrived. Last year Italy finding that it had had to pay too dearly for French support, seized the moment when Austria and Prussia were quarreling over the Danish spoils, allied herself with the latter power and joined in the attack upon Austria. The nett results of this alliance was the crippling of Austria, the formation of the North-German Confederation and the cession of Venetia to Italy. The only existing obstacle to the complete reunion of Italy is the Papal authority in the Romagna. But how to seize the coveted Province and put an end to the temporal power of the Pope without causing a general war? is a question that must seriously have agitated the mind of the Italian Cabinet for months. The Government is too heavily in debt to admit of its engaging in another conflict for the next few years at least; and it would be most impolitic to allow Garibaldi to precipitate a quarrel that might prove disastrous to the Government which he professes to wish to serve. His movement is rash and ill-advised, and can only tend to increase the complications and perhaps affect the relations of Italy with France and other Catholic countries. It is no wonder, then, that the chieftain has been seized and cast into prison; nor is it surprising that we find a force of Italian soldiery sent out to disperse the bands of volunteers who had collected on the frontier. But there is another and still graver fact that must be taken into consideration in discussing this question. If it be true that a French army has embarked for Rome, how far will the presence of that army on Italian soil meet the approval of the Italian Government or people? May it not give rise to a serious misunderstanding or an open rupture between the former allies, and precipitate the general conflict that both Napoleon and Victor Emanuel are exceedingly anxious to avoid for the present, without affecting, in the remotest degree, the position of the Pope?

A NEW ANÆSTHETIC has come into fashion of late; it is quadrichloride carbon, which possesses an agreeable smell of quinces, and can produce insensibility in less than a minute. This insensibility may be maintained with or without loss of conciousness; its effects cease speedily when desired, and are not followed by vomiting. It has also been successfully used for obstinate headache.

Letter from Kootenay.

(From our Regular Correspondent.)

FISHERVILLE, KOOTENAY, Aug 31.

EDITOR COLONIST.—P J O'Reilley, Esq., Gold Commissioner and County Court Judge, arrived here on the 8th of August, certainly not before his presence was required. At the same time there has not been a very large amount of business before him. His decisions have been regarded as just; and in my opinion, were he to remain longer he would become a popular Magistrate. He takes his departure for Hope to-day, with a considerable amount of Government funds in charge. I understand that Mr Normansell, the popular Deputy Collector of Customs, will be empowered hereafter to act as Gold Commissioner and Judge of the Small Debts Court, which will be all this camp requires in that respect.

GAMBLING.

The other night the constable made a raid upon a Celestial gambling house. Ten or twelve flowery Johns were lodged in jail and the next day four of them (keepers of the house) were mulcted in the sum of $50 each—the remainder $10 each. A theory has been somehow promulgated that the wicked will be punished in the future world by being compelled to follow the pursuit for which they have the strongest passion in this world. Some other mode of punishment will have to be devised for Chinamen, because, were they compelled to gamble forever, the future would be for them the most Celestial Paradise imaginable.

A GROWL—NO MAIL CARRIER.

The greatest cause of complaint here at present is want of communication with the outside world. Up to this time there has been no mail carrier for this section. We have to depend entirely upon itinerant travellers for letters and news. Mr O'Reiley brought the latest news from the lower country we have had this year. Surely a community that contributes as largely to the revenue as we do, deserves better treatment at the hands of the Government. There is, however, an express running to Walla Walla, but as the party carrying it does so on his 'own hook,' he of course only comes and goes when it pays, and is therefore not certain to come again.

ANOTHER EXCITEMENT—NEW CAMP STRUCK—FOUR MEN SHOT BY INDIANS.

It is reported, and currently believed, that a party of prospectors known as the Fisher party, have discovered new diggings on some tributaries of the Kootenay River, about 150 miles south of this point, and 80 miles up the Kootenay River from Boomer's Ferry, on the American side. The prospecting party got short of provisions and started some of their men below for a supply, who, on their return were attacked, and four men—John Herron and John Moore, well known in this camp, and two others whose names are unknown, are supposed to have been killed by the Indians. The main party started out to meet the grub train and were also attacked, but escaped with the loss of some of their animals. This tragedy is supposed to be in consequence of an Indian having been shot last spring on Thompson River, a stream emptying into the Pen d'Oreille, by a man named Mike Hunt, who was himself shot in the first affray; but the Indians threatened afterward that they would have the scalps of ten white men for the dead Indian. Some twenty or twenty-five men leave here to day for the new diggings, well armed and prepared to meet the Indians, and should accounts from them prove good, there will be a large rush to that section.

PROSPECTS HERE.

This camp has not proved as remunerative so far as was anticipated early in the season. The Chinamen appear to have the best claims and are generally doing well. There have been no hydraulic claims in operation; but up to the present time they have not proved profitable, owing, in a great measure, to want of facilities for working them. The parties have abandoned their old ground and are opening two new claims with strong hopes of making it pay. The Deep Shaft has at last been abandoned. Many interested are still satisfied that there are good diggings in the claim, but are compelled to abandon it from want of funds. A new hill claim was opened by McCarty & Co on the opposite side of the creek on which most of the mining has been done. They found gold prospects and since the arrival of the Gold Commissioner have been engaged in bringing in a ditch; they are of opinion that the hill for two miles above them will prove rich, and if so, it will be the salvation of this camp. Their ditch will be completed next week, when a large amount of prospecting will at once commence, and I hope to be able to report rich strikes in my next. Should this fail I fear the camp will be entirely given up to Chinamen after this year, who will doubtless find satisfactory diggings for two or three years to come.

MARKETS.

Goods are ruling at very low prices here. The H. B. Co. have purchased the stock-in-trade of Dixon & Co. and are bringing in a large stock from their posts at Shepherd and Kamloops. They are going in, apparently to supply the miners in this camp as well as at Cariboo. Prices are now ruling about as follows: Flour, $18 per hundred; liquors, fine, $6 to $10 per gallon; bacon, 40c to 50c per lb; tea, from $1 50 to $2; sugar, 50c to 62½c; beans, 35c to 40c; rice, 33c to 35c; and all other goods proportionately low. The prospects for traders and merchants here are not at all flattering, but low prices will help to prospect the country and possibly may be the means of making rich discoveries.

ACCIDENT—HEALTH, &C.

The death of a Chinaman (the first who has died here) was caused about the 20th of July by a cave in a ground sluice. His leg was severely fractured. It was amputated by Dr Galbraith, a few hours after the accident; but the Chinaman having lost much blood was too weak to rally after the operation and died a few minutes after it. Unfortunately for the Doctor he was unable to recover his fee for the operation, having left his "diploma" with other papers in some part of Oregon. Fortunately for us all this is a healthy camp and possesses a fine climate. Should a person be taken ill here he would have to trust mainly to Providence, but for my own part, if ill, I should prefer being in a place where there was a good skilful physician with a proper supply of medicines.

As there is very little reading matter here and having nothing to copy from except the COLONIST, which would be too easily recognized, and being run out of original material I will subscribe myself,

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DESPATCHES

THE GROUSE CREEK WAR.

Chief Justice Needham's Opening Remarks—New Trial Granted—The cases to come up in the form of Writs of Ejectment—The Trials fixed for Monday last.

QUESNELLE Sept 26—The Supreme Court was formally opened at Richfield on the 16th instant, by His Honor Chief Justice Needham.

The case of the Grouse Creek Flume vs Canadian Co. was called, and his Honor said: "My object in calling you together to-day, so soon after my arrival here, is to intimate to you what course the court is prepared to take in the adjudication of these several cases. It has been publicly stated that these cases have created great discontent. The court is now therefore prepared to suspend the rules of its ordinary procedure and allow them to be reheard. I am here for that purpose. The mining laws, which I have looked into very minutely, do not forbid this. The cases referred to seem to me to be cases that ought to have been heard on their merits. The cause of this not being done is simply the result of a technical objection. Every court is incidental to the rules of its own procedure, and has the power to suspend these rules if any technicality arises that might tend to defeat the ends of justice. I will in this instance suspend the rules of the court and allow the cases to be tried on their own merits. Sufficient time will be allowed to counsel to get up their cases. With regard to notices, I will alter the rules so as to allow any notice that will be compatible with justice to be given by all parties. My desire is to aid in the speedy adjustment of the difficulties, and it would be very desirable that all parties should show a like reciprocal feeling. And now one word more. The indulgence which I am prepared to give you is this: I will allow you to prove any thing, and to raise any point of law you please. I will allow you all an open opportunity to get justice if you want it."

With the consent of counsel the court fixed to-morrow, at two o'clock, for further hearing, as sufficient time would thus be given to communicate with all parties.

Tuesday, 17th—At the hour appointed the court sat; the various litigants and their counsel were present. Mr Park, on behalf of the Canadian Co., made application for leave to enter an appeal.

Mr Walker said he had communicated with the foreman of the Flume Co., who refused to give his consent to the case being opened up afresh. He had no instructions or authority from the company below, but if cited he would appear and defend the company's rights.

A long argument here ensued respecting the mode of procedure, when it was finally agreed that the cases should be brought into court in the form of writs of ejectment by which process the legal and equitable rights of parties would be equally as well protected as if the cases were entered in the usual form of appeal. It was also agreed, at the conclusion of a lengthy discussion, that the gold taken out of the disputed stretch of ground by both parties should be deposited in the hands of the officer of the court to await a final decision. By the consent of all parties Monday next was fixed for the hearing.

The Prize Fight.

QUESNEL, Sept. 26.—The prize fight between George Wilson and Joe Eden came off on William Creek at noon on the 24th inst. Eden drew first blood. On the 23rd round Wilson struck Eden when he was down; the blow was declared foul and the referee decided the fight in favor of Eden. Time of fight thirty minutes. Eden wanted the fight to go on, but Littler, his second, would not let it as he had already won the money.

Europe.

The Prussian Diet was dissolved yesterday to meet in November, when it will include deputies from the States annexed to Prussia.

LONDON, Sept. 24.—It is rumored that Kelly sailed from Liverpool for America on Saturday.

A special Commission will assemble at Manchester to try the Fenians.

It is rumored that the Emperor of Russia has refused an alliance proffered by the Turkish Government, which is now seeking an alliance with France and Russia.

DUBLIN, Sept. 24.—It is reported that a suspicious craft is cruising off Kerry, supposed to be a Fenian privateer.

A conflict occurred in the streets of Limerick yesterday. The troops fixed bayonets and charged on the crowd; 8 reported wounded and one killed. The conduct of the troops is condemned.

California.

SAN FRANCISCO, Sept. 24.—The following telegram has been received by the Pacific Mail Steamship Company:

NEW YORK, Sept. 24.—To Oliver Eldridge: The Arizona arrived this morning, all well, detained but a few hours at quarantine for examination.

Eastern States.

NEW ORLEANS, Sept. 23.—The whole number of deaths by yellow fever were 1,214 up to Saturday; the deaths average about 20 daily now.

CHICAGO, Sept. 25—The *Times'* Nashville special says the Mayor has determined to call out any number of special police necessary to repel interference of State Militia with election, and accordingly has issued proclamation declaring he will hold the election and employ necessary means to resist Brownlow's intervention. Grant has ordered Gen. Thomas to proceed to Nashville to take command and maintain peace at the point of the bayonet. He will be supplied with all troops necessary. Grant and the President do not undertake to decide which party is right, but believe Gen. Thomas will be able to preserve peace.

NEW ORLEANS, Sept 24—The interments from yellow fever for 24 hours were 82. In Lagrange, Texas, only 500 people remain in town, yet the interments for two days reached 24. The disease proves fatal in 9 cases out of 10. Whole families have been swept off—no provisions in town: country people will not venture to bring any in, not even meal to make gruel for the sick; business has ceased entirely, newspapers are suspended and stores closed. The jails are emptyed of inmates.

Insurance Co. of New York.

[INCORPORATED 1842.]

ASSETS, $22,000,000 CASH!

THE UNDERSIGNED WILL RETURN to Victoria in December next to receive applications for policies in the above Company.

Life Assurance is now regarded as a social duty. The "Mutual" affords the greatest security. The "Assets" are "Cash," and the profits are divided amongst the policy-holders only. An Endowment Policy offers to young men the best investment.

EXAMPLE:

Endowment Policy for $5000—issued at age of 25—payable at death or 40 years of age—Annual Premium $299 25.

Dividends are declared annually, and can be used as cash.

"Remember, life is but a shadow;
Its date the intermediate breath we draw.
Ten thousand accidents in ambush lie
To crush the frail and fickle tenement;
Which, like the brittle hour-glass measuring time,
Is often broken ere its sands are run."

Municipal Council.

THURSDAY, Sept 26.

The Council at 7 30 p. m. The Mayor and Councillors Lewis, Hebbard, Gibbs and Trahey were present.

COMMUNICATIONS.

A communication was read from Drake & Jackson on behalf of Mr A. De Cosmos, objecting to exactions in regard to the proposed improvements of the Johnson street drain adjoining his property on Cormorant street. Filed.

An account from COLONIST and CHRONICLE was referred to the Finance Committee for payment.

An application was read from Mr W. S. Green for the sum of $350 relative to expenses incurred in respect of the matter of Titus vs the Corporation arbitration. Received and referred to the Finance Committee with power to act. The reading of the arbitration award was deferred for consideration, the Council in the interval to consult with its solicitor.

Councillor Gibbs moved that the sum of $200 be appropriated towards the repairs of Menzies street and other portions of the James Bay Ward. Carried.

Councillor Lewis moved that a notice be published to the effect that all persons who have not paid their 1st, 2nd and 3rd quarters' municipal taxes ending Oct 31st on or before the 30th October next will not be entitled to vote at the next municipal election. Carried.

The money votes of the last meeting were confirmed.

Council adjourned until Saturday at 10 a.m.

Board of Education.

A meeting of this body took place yesterday. Present—Dr Powell, (chairman) and Messrs. Garesche, Tolmie, Wood, Franklin, Higgins.

Communications from Messrs. W H Parsons and Wm Fisher, respecting the vacancy in the office of Superintendent, were read.

On motion of Mr Franklin, seconded by Mr Garesche, it was resolved to postpone the recommendation of a Superintendent for the present and pending the choice of an officer the members of the Board will visit the schools from time to time.

The chairman drew the attention of the Board to the fact that the Central School was overcrowded, there being 110 scholars in regular attendance, while the District School contained only forty pupils.

Mr Franklin moved, seconded by Mr Garesche, that Messrs Powell, Tolmie and Higgins be appointed a committee to make such arrangements as they may deem proper for equalizing the number of pupils in each school.

The Board then adjourned.

A LITTLE conversation at a horse show recently held near Paris has caused a good deal of talk. Several Prussian horses were exhibited. They were very fine looking, but were pronounced by the majority of the judges inferior in several important respects to some of the other horses The Prussian judge lost his temper at these unfavorable criticisms, and said in a bitter tone, 'Whether you appreciate these horses or not, they will none the less come in the month of May to drink out of the Seine." It is a wonder that provocation for a duel was not at once given as two of the French udges were officers of the Legion of Honor. However one of these gentlemen contented himself with saying dryly, "Monsieur, we are not yet at war." The Prussian was hissed by the crowd when he set out for Paris.

THE ZEALOUS TAKEN!—What the combined fleets of the world might find rather difficult to accomplish, was yesterday effected by Mr R. Maynard, the photographic artist of Johnson street, who, in the short space of half-a-minute succeeded in taking our noble flagship Zealous. The work was skilfully executed. No resistance was offered by either officers or men; and the successful disciple of Daguerre is disposing of the ship on cardboard to all who may wish to possess themselves of a memento of so interesting an event.

INSULT TO A FLAG.—During a late procession in San Francisco, an egg was thrown at the American flag from a room in the Russ House occupied by D. B. Inglis and F Griffin, late master and mate of the telegraph ship Egmont, by a young woman known as Katy Mack. A San Francisco paper says: "If it appear that the insult was directed by the Englishmen, they should be reprimanded by the British Consul, otherwise they ought to be escorted down to the dock, and ordered to get out of the city."

IN SERVICE AGAIN.—The Deluge engine having received thorough repair, is again ready for active service, for which, we hope, there will be no necessity.

NEW STORE.—Willson & Rickman, the well known family grocers, yesterday removed their stock of goods to their handsome brick structure. The building is one of the finest in the place, and is a credit both to the enterprising owners and the contractors. We wish the firm a continuance of the prosperity that has so deservedly attended their efforts at their old stand.

THE PRIZE FIGHT.—The result of the fight at Cariboo has taken all by surprise. Everybody was prepared for a stubborn and decisive fight; but no one counted upon a foul blow deciding the contest. As it is likely that neither party will feel satisfied, another meeting will probably be arranged at an early day.

THE three deserters from the Day Dawn who stole a boat from New Westminster, were tracked by the owner of the boat to Point Roberts, where he compelled them to deliver up the stolen property and left them to track many weary miles through the wilderness in search of food and shelter.

WE understand that an arrangement has been arrived at between Messrs Wilson & Murray and their creditors, whereby Messrs J A McCrea, M T Johnson and Wm Wilson are authorized to receive all monies due the concern. A meeting of the creditors will probably be held on Saturday.

THE FENIANS of New York say they have material enough to keep thirty thousand men in the field for one year. They might as well keep one man in the field for thirty thousand years; the result would be about the same.

PROCEEDINGS IN INSOLVENCY.—Z. Amos, formerly of the lumber firm of Amos & Phinney, of Port Ludlow, W. T., has filed a petition in insolvency at San Francisco. Liabilities nearly $300,000, mostly secured by mortgage on real estate.

CANADIAN DAIRYMEN propose to send an agent to England to sell their cheese; the number of cows owned by them is 20,000, and the product of cheese is about 25,000,000 pounds.

A Caledonian paper, in an obituary of a young lady, who died lately, closed by saying "She had an amiable temper, and was uncommonly fond of ice-cream and other delicacies."

THE steamship John L. Stephens, which sailed from San Francisco on Wednesday, for Sitka *via* Victoria, should arrive here on Sunday night or Monday morning.

THE Fideliter sailed from Portland on Wednesday and is due here to-day.

A GOOD MOVE.—J BRUNN & CO have moved to their New Store, Corner of Yates and Langley streets, between Wells, Fargo's Express and the Bank of British North America. Their New Corner Store is stocked with new and well selected Custom-made Clothing, Hats, Caps and Gentlemen's Furnishing Goods. Their stock and our prices will benefit all. Greenbacks taken at San Francisco current rates at their new Store, near Wells, Fargo & Co.'s Express. 1m*

DENTISTRY—Dr G. W. Cool has arrived in town and will be found at the St. George Hotel, rooms Nos. 22 and 23. Those who desire his services will please call immediately, as his stay in town will not be protracted. *

WHEN you feel a cough or bronchial affection creeping on the lungs, take AYER'S CHERRY PECTORAL, and cure it before it becomes incurable

FRED. PAYNE has removed his Cheap Shaving Shop to the opposite side of Johnson street, just above the Miner's Saloon. *

IF you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco. *

A Brief Career.

The London *Times* has a short synopsis of the career of a young English gentlemen, named Harvey Wadge, who came to Dublin, and devoted himself with great energy to the development of the industrial resources of Ireland which he said were magnificent, but unaccountably neglected. All that was needed to make the country prosperous was capital, directed by intelligence. Happily Mr Harvey Wadge was a gentleman who felt a deep interest in our people, and he had an unlimited command of capital, being a large proprietor of English mines, and having, though a young man, realized an immense fortune. What Ireland wanted, therefore said the press, was more Wadges. He established a company and set a factory going in the neighborhood of Dublin. He established an industrial magazine to make known the wants of Ireland on the one hand, and its latent wealth on the other. After a few months the magazine suddenly stopped, but this was because the object for which it was started had been effectually accomplished during its brief and prosperous career, and Mr Harvey Wadge found that the time and attention it required must be devoted to schemes of a higher and nobler character. In the meantime his entertainments, were in a style of splendour almost unparalleled, as became a millionaire. His house was furnished in the most costly manner, and his taste was the theme of general admiration. He had in his cellar a quantity of the choicest vintages, which he declared to be 100 years old. Marley, the fine old family seat of the La Touches, was in the Landed Estates Court, and Mr Harvey Wadge was declared the purchaser, making a deposit of £12,000 in part payment. In the meantime, there were mysterious whispers in commercial circles that all was not right, and ultimately it was announced in the fashionable intelligence of the Dublin papers that Mr Harvey Wadge had left town for a short visit to Italy where he was requested to authenticate a signature in a will case, in which a Prince was one of the parties. It soon transpired that this enterprising gentleman was not likely to return to the country which he promised to regenerate, and many of those in whom he inspired confidence have come to the conclusion that it would be better without such industrial operators to develope its resources.

A 'big sister' teaching her little brother mental arithmetic said; 'Now Charlie, suppose you have twenty sugar plums, and you want to divide them into four parts. You give baby five and me five; what would you do with the other ten.' 'Suck 'em, was the reply.

The North West.

At a public meeting held at Portage La Prairie, outlying portion of the Red River Settlement, Rupert's Land on the 31st of May, resolutions were passed appealing to the British and Canadian authorities for the extension to that quarter of the jurisdiction of the Canadian Government. There, as everywhere else in British America, the desire is rather for connection with Canada than annexation to the United States. The settlement is composed chiefly of English, Scotch and Canadians, with a considerable Halfbreed population, and a sprinkling of Americans A correspondent gives us some facts concerning this new region, which will be interesting to our readers. The settlement is but a small one as yet, but emigrants from Canada are arriving this season, and there is a prospect of a constantly-increasing stream from this quarter. It is situated fifty or sixty miles west of Fort Garry, just outside of the circuit of the civil jurisdiction of the Hudson's Bay Company, and has, as yet, no government or machinery for dispensing justice. This appears to be the chief want of the settlers, and we hope before long the Government of Canada will be in a position to remedy that defect.

The climate and soil are such as to give assurance of early and rapid growth for the settlement. The winters are comparatively mild, so much so at least that horses and cattle can keep fat running at large on the prairies. The snow seldom falls to any considerable depth, wheeled carriages being used at all times till Christmas. The soil is described as a black loam, varying in depth according to some authorities from three to six feet, or according to our correspondent, from five to eight feet. The substratum is a white clay, mixed with sand in some places, and of great depth. Comparatively little rain falls, but heavy dews maintain the degree of moisture requisite to fertility. The product of the wheat crop reminds us of the first crops on some of the best soils here—fifty bushels to the acre being secured by a Canadian farmer from Puslinch, who has made his home there. The wheat was the golden drop, and though left standing till it was too ripe, the above yield was obtained. The wheat weighed 67 pounds to the bushel, and we learn that 64 pounds is no unusual weight for wheat in that region. The same farmer reports 600 bushels of potatoes from three-fourths of an acre of land. All root crops give an enormous yield, and flax flourishes.

This fertile region is, moreover, very extensive, stretching away to the base of the Rocky Mountains. Its capacity for sustaining a population is practically unlimited—at least the limit is far beyond any point that can be reached for some generations. This vast expanse also contains the natural route for the inter-oceanic traffic of the Northern Hemisphere The cost of a railroad would be light across a plain which is almost a dead level. We hope that ere long the Red River settlement and the Portage La Prairie settlement, and all the other settlements out there will form a part of the Dominion of Canada. It is in that direction that our chief expansion must take place, and the more rapidly communications are opened up, and our influence extended, the brighter will be the prospect for Canada. Delays in this matter are dangerous, for a sudden rush may take place at any time to the gold regions of the North West, and a population seize on the soil, who will struggle hard to drag the country into the American union. An American politician and economist of some note, Mr James W. Taylor, of Minnesota, some months since spoke of the idea which prevailed among the miners south of the boundary line, that deposits of untold wealth exist not far from the line in British territory. He said that a sudden excitement might carry thousands into British America, and on that idea evidently grounded hopes of annexation. The British Government, or our own, should provide against the danger of losing, this splendid territory, that is now, we fear, in a precarious position. The want of a proper system of government and the dislike of the Hudson's Bay Company, aggravate the evil. Action cannot be taken too soon.—*Toronto Globe.*

TRANSFORMATION OF FOREIGN NAMES.—This process of changing foreign names is actively going on in our midst, thanks to the variety of European elements which flow into the great mass of our people. Occasionally the change can be clearly traced, as in local names. Thus we find the river *de la feve*, as the French settlers called the tributary of the Mississippi which passes Galena, soon changed into the more familiar name of Fever River. The same takes place among the Canadian neighbors, where a French population is slowly giving way to English settlers, and the old French names undergo strange alterations. Thus a place on the Ottawa, formerly called *Les Chenaux*, or The Channels, has become in pronunciation *The Snows*, and the spelling will probably soon follow the sound. Another settlement, which for some reason or other was called *Les Chats*, is rapidly changing into *The Shaws;* and a third, *Les Joaquins*, is altogether transformed into *The Swashings*. A hill near the Bay of Fundy, once poetically designated by the Acadians as *Chapeau de Dieu* (God's hat,) is now called *Shepody* Mountain. Nor are these names confined to French names under English rule only, but foreign words of any kind, when used by ignorant men, have suffered in like manner. Thus the Indian name of a river in New Brunswick, *Pekantediac* (river in white birch land,) is there popularly known as *Tom Kedgewick*, and numerous instances of like transformations are found in every section of the United States.—*Studies in English.*

QUEBEC CROWN LANDS DEPARTMENT.—The western wing of the Parliament Buildings is nearly completed, and the different rooms have already been labelled with the names of the intended occupants among the clerks of the department. The building has been painted red outside, and inside the flooring and walls have had an entire overhauling. Work has been commenced on the Legislative Assembly Chamber in the centre of the building, but all is yet chaos and will take some time to fix up.—*Quebec Gazette*

VEGETABLE PAIN KILLER.

The Greatest Family Medicine of the age

Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painter's colic Asiatic cholera, diarrhœa and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. IT IS A SURE REMEDY FOR AGUE AND CHILLS AND FEVER

HOLLOWAY'S PILLS—The Perfection of Medicine—Nothing can surpass this restorative of the invalid; let the malady be what it may, or be seated where it will, these fine, purifying Pills will address themselves to its removal and steadily accomplish their purpose. They cleanse the blood, and by that means not only prevent the deposit of unwholesome materials, but stimulate the absorbents to remove all corrupt or worn-out substances. Thus have Holloway's Pills won their way to public estimation, which is obtainable and retainable alone by what is intrinsically good. The significancy of these remarks will be appreciated by thousands who took these Pills as a last resource, and derived from them renovated health, after hope was almost abandoned. 29

A Card for the Dressing Room.—Ladies, your attention is invited to the especial advantages of Murray & Lanman's Florida Water over every other perfume. It is manufactured from fresh floral extracts, not from unwholesome chemical combinations intended to counterfeit their odors. Besides being the most delicate and delightful of floral water, it has important sanitary recommendations. Its aroma relieves head ache, prevents fainting fits, promotes sleep, and soothes the nerves Infused into the bath it renders it more invigorating and refreshing. Combined with water it imparts whiteness to the teeth, preserves the enamel, and renders the gums hard and rosy. No other toilet-water retains its fragrance so long after contact with the atmosphere.

FRENCH MEDICINES IN VOGUE.

BY GRIMAULT & CO.,

Chemist to H. I. H. Prince Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER OIL

GRIMAULT'S SYRUP OF IODIZED HORSE RADISH.

The syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superior It cures diseases of the chest, scrofula, lymphatic dis orders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by purifying the blood, and is, in a word, the most powerful depurative known. It never fatigues the stomach and bowls, and is administered with the greatest efficacy to young children subject to humors or obstruction of the gland. At last, it is very efficacious in the diseases of the skin.

No More Consumption.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME.

This new medicine is a sovereign remedy in phthisi nd ther diseases of the lungs, promptly removes all the most serious symptoms. The cough is relieved; th night sweats cease, and the patient rapidly recovers h health.

No More Poverty of the Blood and Pale Complexion,

DRS LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colorless and tasteless. It speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhœa and anemia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to ladies of delicate constitution suffering from anemia, and other persons fa tigued from over anxiety, nervous emotions, over work, general debility and poorness of blood.

It is the only preparation which never causes con-ti- io and can be borne by the most delicate stomachs.

Nervous Headaches and Neuralgias.

Instantaneously cured by

GRIMAULT'S BRAZILIAN GUERANA.

A vegetable substance, used from time immemorial in Brazil, and entirely inoffensive.

Better than Copabia

GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS

Where all other preparations have failed, these pre parations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of priv. to diseases. They are used in the hospitals of Paris, by the celebrated Dr Ric rd, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs The injection is used in recent and capsules in more chronic cases.

DIGESTIVE LOZENGES AND POWERS OF ALKALINE LACTATES

BY BURINDU BUISSON,

LAUREATE OF THE PARIS IMPERIAL ACADEMY OF MEDICINE

This delicious preparation is prescribed by the most reputed doctors in France, against all derangements of the digestive functions, such as gastritis, gastralgia, long and painful digestions, wind in the stomach and bowels emaciation, jaundice, and complaints of the liver and loins.

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lesson in flamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above com plaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

his class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency nd safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills. which act opowerfully on the constitution and so puri fy the blood that these disorders are completely eradica ted from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body nd mind, fa se delicacy concealing them from the know dge of the most intimate friends. Persons suffer for ears from Piles and similar complaints when they might se Holloway's Ointment with instant relief, and effect heir own c ire without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it wil gradually penetrate and in almost every case give imme diate relief; but perseverance will be necessary to effec a to rough cure.

Both the Ointment and Pills should be used in the fo owing cases:—

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse the stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of a lits pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood rom all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the ben ficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity o stomach and bowels, which, if not quickly attend d to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regular ity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are en irely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they pu ify, the ointment passes through the pores of the s in, and cleanses every structure, as water saturates he soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE. Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been worn to. See the TIMES, July 13th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne. See LANCET, Dec. 31, 1864.

Dr J. Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.'

Dr J. Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

Dr J. Collis Browne's Chlorodyne is a certain cure in Cholera, Dysentery, Diarrhœa, Colics, &c.

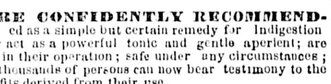

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.' From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—'Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other medicines had failed.'

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words 'Dr. J. Collis Browne's Chlorodyne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell Street, Bloomsbury, London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½; 2s 9d; 4s 6d and 11s.
